

## What A Month!

The past several weeks have been quite exciting. April 1-2, I was at the [Hope to Heal Lyme](#) conference in Reston, VA. It was a very informative event in which I got to meet several of the more well-known Lyme doctors. I met Dr. Burrascano, Dr. Raxlen, Dr. Corson, Dr. Bock, and Dr. Charles Ray Jones! What a great line-up!

I have posted a 22-page document that summarizes what I found interesting at the conference. I hope you enjoy it. You will find it [here](#).

In addition, I urge you to get the multi-DVD set of the conference and watch it for yourself. Char Healy did excellent job with this event and is offering the DVDs for only \$50 plus shipping. That is an excellent deal for all the information that you will get. To get your DVD, go [here](#).

an

As if this were not enough, I had the honor of going to Dr. Klinghardt's April 7-9 conference on **Autonomic Response Testing (ART)**. This resonated with me very deeply. I am working now to learn this technique further and plan to go back for ART II in September. It is a powerful tool and I am glad to now have it in my arsenal.

Two separate doctors including Dr. Klinghardt himself (I was so thrilled!) evaluated me and came up with the same thing. My most stressed organ is my tonsils. Not one doctor had ever told me that before. Thanks to ART, it was revealed and can now be addressed. It also revealed the continued presence of Borrelia, Ehrlichia, and Babesia. Fortunately, the Bartonella no longer seems to be an issue. We were then able to use ART to figure out what remedies would be appropriate. In my case, it was the addition of Japanese Knotweed (also known as Polygonum or Resveratrol).

BioTools announced the KMT24 will be available in the very near future. If you are not using the KMT devices as part of your recovery, I would recommend looking at them further. They can be very useful in helping to inhibit the multitude of organisms that plague most of us with chronic Lyme Disease.

## Treatment Update

This month was the calm before the storm on the treatment front. Given that I was scheduled for three Lyme Disease conferences in less than 5 weeks, I did not want to shake things up with new treatments during this time. Very little changed and yet new plans were outlined. I am soon to add Tinidazole for 60 days to help with both Lyme and Babesia.

I have added in another useful product for heavy metal detox called [Heavy Metal Detox \(HMD\)](#).

I continue to study, research, and incorporate the works of Dr. Klinghardt. In my opinion, **he is one of the few true healers and his writings warrant thorough review.**

More information on my current treatment protocol including a full listing of supplements can be found [here](#).

## Sharing Our Stories

[Open Eye Pictures](#) was at the Hope to Heal Lyme conference filming for [Under Our Skin](#). I had the opportunity to have dinner with Andy Abrahams Wilson and Cheryl Drake – the producer/director and co-producer of the film. Both Andy and Cheryl are full of passion for this project. I have every confidence this movie is going to be a major step forward for all of us.

When the 28 minute sample clip was played at the conference, the room was filled with emotion. When it ended, everyone gave Open Eye a standing ovation.

This film has the ability to teach, to inform, and to enlighten the masses on the struggles that all of us with Lyme Disease face on a daily basis. Please help support this project. You can **contribute online at [www.LymeDiseaseFilm.com](http://www.LymeDiseaseFilm.com)**.

## Dr. Charles Ray Jones

I met Dr. Jones at the Hope to Heal Lyme conference. What a kind soul. Intelligent, passionate, driven. It is hard to believe that Dr. Jones has worked with more than 9000 (yes, nine thousand!) children with Lyme Disease. It is even harder to believe that his medical license is currently being challenged. If we don't win (yes, I say we – this is **our** battle), any of our doctors may be challenged next. Please support Dr. Jones in this important fight. To support online, visit <http://www.DefendLymeDoctors.com>

## Upcoming Events of Interest

**“Chronic Illness: Integrative Approaches to Lyme Disease, Stealth Infections and Inflammation”** is a conference being put on by [ACAM](#) May 5-7. I will be there, and I hope you will be there as well. The list of doctors is quite impressive. The more information we can arm ourselves with the better our chances of doing the right things to move our bodies towards balance and recovery.

## Until Next Time

Thanks for all your kind words, inspiring stories, thoughtful direction, and for your compassion. Live, love, and laugh each and every day for tomorrow is not a given.
